

Adrian Chila

Sugar Land, TX | (713)-566-0388 | achila@ttu.edu | www.linkedin.com/in/adrianchila

EDUCATION

Texas Tech University, Lubbock, Texas

Graduation Date: May 2027

Bachelor of Science in Electrical Engineering, *Honors College*

GPA: 3.98

Scholarships: Presidential Scholarship, Electrical and Computer Engineering Departmental Scholarship

Relevant Coursework

September 2023 - Present

- Signals and Systems, Electronics, Circuits, Microcontrollers with C, Modern Digital System Design, Circuits, Project Lab

Summer Study Abroad - Paris, France

May - June 2024

- Managed \$2,000 budget in a foreign country for food, living costs, cultural experience
- Proactively created day-to-day itinerary to excel in classes while experiencing Paris

PROJECTS

Rover Project, *Hardware Team Lead*

January - Present

- Built a circuit consisting of filters and op amps that digitize and amplify a received IR signal for rover instructions
- Modeled and 3d printed a claw design that utilized rubber bands to grip heavy objects
- Designed circuit that detected overcurrent in the motors of the rover's wheels
- Assembled all hardware consisting of IPS sensors, H-bridge, Basys3 FPGA, breadboard circuits, and motors
- Programmed a Verilog module that multiplexed a Seven-Segment display with the desired digits and characters
- Resolved motor spin issues using debugging tools such as oscilloscopes for hardware & testbenches for software

Rocket Power Distribution Circuit, *Team Member (Raider Aerospace Society)*

September 2024 - Present

- Designed a power distribution system for GPS modules, Altimeters, and trackers for a competition rocket
- Develop and maintain a PCB schematic in KiCad for the power distribution system

Arduino Skittle Sorter Project, *Team Lead*

November - December 2024

- Constructed a machine that scanned Skittles using a TCS3472 color sensor and moved servo motors to drop them in specific locations
- Coded different Arduino components in the IDE using C programming language

Computing Project, *Team Member*

November - December 2023

- Analyzed a power generation database with over 9,000 values
- Built a regression model in Python that estimated the power output based on the ambience parameters

Eagle Scout Project, *Senior Patrol Leader / Eagle Scout*

February - May 2022

- Led and mentored team to complete PC construction and testing phase of 13 PCs collected from donations
- Donated computers along with instructions of use to senior citizens at local community center

LEADERSHIP/INVOLVEMENT & WORK EXPERIENCE

Institute of Electrical and Electronic Engineers (IEEE)

September 2024 - Present

Pro Points Officer

- Created and sold digital circuit kits to students in the electrical engineering program
- Manage pro point tracking for 300+ electrical engineering students, worth 10% of students' grades

Greater Houston Pool Management, Houston, TX

May - August 2021

Lifeguard

- Completed 20 hours of lifeguard training including becoming CPR and first aid certified
- Thoroughly monitored a 2,000+ square feet pool, waterslides, and baby pools ensuring a safe environment

SKILLS & INTERESTS

Intermediate in **Java, Python, C, and Verilog**

Autodesk Inventor Certification & **Autodesk Revit** Certification

Member of the Texas Tech Symphonic Band
